# GYOSAN got a ride on the Big Wave of “ARASHI”.

In 2009, Satoshi Ohno, the leader of the most popular Japanese idol group “ARASHI”, introduced GYOSAN in the famous TV show. That became the breakthrough for GYOSAN. ARASHI is especially popular in Asia, like Hong Kong, Taiwan, Korea, Indonesia, and Thai.

Mr. Ohno is well known as a fishing lover. He became fond of GYOSAN personally, and introduced GYOSAN in a famous TV show to the viewers not only as the fisherman's sandal, but as the stylish casual footwear.(right)

The feedback was immense. Even during the program was still on the air, the phone call for order kept on ringing. The color he wore was sold out in a minute.

In the other show, Mr. Ohno introduced his original style to wear different colors on each foot.(left) Many fans of ARASHI rushed to get GYOSAN, and followed his style.

The Big Wave of GYOSAN caused by Mr. Ohno overwhelmed over Japan. And the Big Wave is coming to Asia now!!!
